SUMMARY

A passionate Computer Science and Engineering student at Green University of Bangladesh with strong expertise in backend development, machine learning, and competitive programming. Experienced in Python, C++, JavaScript, Django, and TensorFlow. Active competitive programmer (Codeforces: 754) and Vice President (Technical) of GUBCPC. Currently conducting thesis research on breast cancer biomarker identification using advanced bioinformatics techniques. Seeking opportunities to apply technical skills in backend development, AI/ML research, and scalable system design.

EDUCATION

Green University of Bangladesh, Rupganj, Narayanganj	2022 – Present
<i>Bachelor of Science (B.Sc.) in Computer Science and Engineering</i>	CGPA: 3.27
Mymensingh Commerce College, Mymensingh	2020
<i>Higher Secondary Certificate (HSC), Mymensingh Board</i>	GPA: 5.00
Govt. Laboratory High School, Mymensingh	2018
<i>Secondary School Certificate (SSC), Dhaka Board</i>	GPA: 4.89

THESIS

Integrative DEG and WGCNA Analysis Multi-Cohort Datasets to Identify Biomarkers of Breast Cancer *Expected: 2026*
Supervisor: Humayan Kabir Rana, Department of CSE, Green University of Bangladesh

- Integrated DEG and WGCNA across multi-cohort datasets to discover and validate highly generalizable clinical biomarkers.
- Implemented machine learning classification models to evaluate biomarker accuracy and robustness.
- Tools:** Python, TensorFlow, Pandas, Bioinformatics Tools.

PROFESSIONAL EXPERIENCE

Customer Service Executive *May 2026 – Jul 2026*
Impressive Sale, Gazipur

- Efficiently managed multi-channel customer inquiries and resolved complaints.
- Delivered high-quality client support in a fast-paced environment.

KEY PROJECTS

- RecStudio: Screen Recorder Application** *2026 — GitHub*
Built a cross-platform browser based GUI screen recorder supporting video encoding and compression.
Tools: Python, CustomTkinter, OpenCV, FFmpeg.
- Socket-Based Multiplayer Chess Game** *2024*
Developed a real-time multiplayer chess game utilizing socket programming for state synchronization.
Tools: Python, Pygame, Sockets.

SKILLS & TECHNICAL PROFICIENCIES

- Programming & Databases:** C++, Python, Java, JavaScript, PHP, Golang, HTML/CSS, SQL.
- Frameworks & Libraries:** Django, TensorFlow, Keras, Scikit-learn, Pygame, CustomTkinter, Swing.
- Tools & OS:** Git, GitHub, VS Code, LaTeX, Canva, Linux (WSL), Windows.
- Interests:** Competitive Programming, Machine Learning, Bioinformatics, Backend Development.
- Soft Skills:** Problem-solving, Teamwork, Quick Learner, Leadership.
- Languages:** Bangla (Native), English (Fluent).

COMPETITIVE PROGRAMMING

- Codeforces:** Handle: [reahoon](#), Rating: 754.
- Strong foundation in data structures, algorithms, and problem-solving strategies.

EXTRA CURRICULAR & ACHIEVEMENTS

- Vice President (Technical), GUBCPC (2026–2027):** Managing programming contests, server infrastructure, and technical events for the Green University Competitive Programming Community.
- Event Management:** Coordinated multiple large-scale programming contests and community events.
- 5th Position, GUB Logic Battle (2025):** Secured 5th place in the Inter Department Math Olympiad (IDMO) organized by Green University Computer Club.
- Python (Django) Training (2025):** Completed an 80-hour training program conducted by IIT, Jahangirnagar University under the EDGE Project, ICT Division.
